

Pathways to Climate Resiliency

Track Partner: Liberty Mutual Insurance

What We Are Looking For

On this track, strong applicants will be able to demonstrate some or all of these key characteristics:

- Offer impactful, long-term, and sustainable solutions to **community-identified** issues around climate resiliency.
- Advance climate resiliency through strategies that may include: nature-based solutions (urban farming, accessibility to green spaces), food justice, transportation justice, green jobs, movement building, policy advocacy, and collaboration with other stakeholders.
- Recognize and amplify the voices and needs of low-income communities, communities of color, and historically underserved communities. Center leadership and build power in the communities served.
- Provide community members with a range of opportunities to engage and participate in climate resiliency efforts to build resilient communities and infrastructure.
- Development of resilient and sustainable infrastructure in low-income neighborhoods and communities of color.
- Meet the [Social Innovator Accelerator Criteria](#).
- *Organizations must be operating in Boston, Brockton, Cambridge, Chelsea, Quincy, Randolph, and/or Somerville to apply.*
